

## Nominations Accepted for Gifted/Talented Program

Nominations for our Gifted/Talented program will be accepted through September 17, 2010. This will be the first round of testing for the school year. A student must be enrolled in the first grade or above to be nominated for this program. Our kindergarteners will be identified in the coming months with an opportunity for all students to be screened for the program.

The Cooper ISD Gifted/Talented program is meant to challenge students and enhance the education of students who excel in the academic areas of math, language arts, science, or social studies. To qualify, students must earn top scores on a rigorous battery of tests that include achievement, intelligence, and performance measures.

Student nominations can be accepted from teachers, parents, the child him/herself, a neighbor, etc. All students referred during this time period will be tested and considered for the program by the end of October 2010. A written nomination may be sent to the campus contact as listed below.

Elementary- Jeanette Burnett at P.O. Box 478, Cooper, Texas 75432.

Junior High & High School- Linny delaPena at P.O. Box 429, Cooper, Texas 75432.
